## OVERVIEW

Peraton Enterprise Solutions, LLC, a Peraton company (“Peraton”), is a leading national security and technology provider. Peraton operates through several core business areas, including Space & Intelligence, Defense Mission & Health Solutions, Citizen Security & Public Health, and Strategic Innovation, positioning itself as a vital partner for government missions of consequence. Peraton offers a robust suite of capabilities that align well with the needs of the GSA ASTRO contract vehicle.

Peraton leverages emerging technologies to create scalable solutions for complex environments, addressing challenges in cybersecurity, network defense, and critical infrastructure. This positions Peraton as a valuable partner for the GSA ASTRO contract vehicle, providing not only current operational support but also future-proofing capabilities through ongoing research and development.

In summary, Peraton’s comprehensive capabilities across research and support make it a candidate to fulfill the requirements of the GSA ASTRO contract vehicle.
